Silver surfer (internet user)

This article is about older people that use computers/Internet. For other uses, see Silver Surfer (disambiguation)

A silver surfer is an older person who spends a lot of time using the Internet. [1][2]

A recent survey concluded that the main topics of search for Silver surfers are news, travel, weather, and health information[3]. These topics are age appropriate. The growing increase of silver surfers using the Internet has led to a decrease in emotional isolation and an increase in older people's self-esteem.
